

Randlay Primary School and Nursery

'Working Together as One'

Relationships, Sex and Health Education Policy (RSHE)

Co-ordinator: Kate Hever	Date Adopted: April 2018, reviewed annually.	Date to be reviewed: April 2025	Lead Governor: Penny Hustwick
---------------------------------	---	--	--------------------------------------

This policy has been reviewed in light of the statutory Relationships Education, Relationships and Sex Education (RSE) and Health Education guidance released by the DfEE in 2019. (see appendix a)

The teaching of Relationships and Health Education at Randlay Primary School embeds and embraces our Randlay Values of Respect, Collaboration, Aspiration, Excellence, Courage and Creativity.

RSE in our school is part of the personal, social and health education curriculum. It is our belief that RSE is the responsibility of all staff and should be an integral part of teaching and learning processes. This is part of the integrated curriculum of the school. Education for personal growth and self-esteem, including sex and health education complements and overlaps with the consideration of the personal, social and emotional development of the child (see PSHE policy) and the general life of the school (Behaviour policy, Equal Opportunities), relationships with one another, including staff and parents, socialisation, values and attitudes. It should be provided for all children including those with physical, emotional or learning difficulties.

Ofsted 2002 recommendations have informed our policy and practice, in particular - 'A caring and developmental SRE programme needs to be more than just biology and the fundamentals of reproduction. Young people want reassurance about their body image, behaviour, feelings and relationships. They also need knowledge and skills appropriate to their level of maturity and developmental needs.

In planning and presenting our RSE programme we provide an opportunity for pupils to express themselves within a trusted and safe environment. Central to our PSHE programme is the development of pupils' self-esteem. If young people feel positive and good about themselves they are more likely to take care of themselves, think positively of other people and therefore, develop non-exploitative, caring relationships. They are also less likely to be exploited by others.

Our policy and practice is based upon national guidance, good practice guidelines and consistent with Shropshire Council recommendations. This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Section 80A of the Education Act 2002
- Children and Social Work Act 2017
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Equality Act 2010
- DfE (2019) 'Relationships Education, Relationships and Sex Education (RSE) and Health Education'
- DfE (2013) 'Science programmes of study: key stages 1 and 2'

- DfE (2021) 'Teaching about relationships, sex and health'

This policy operates in conjunction with the following school policies:

- Child Protection and Safeguarding Policy
- Behavioural Policy
- SEND Policy
- Inclusion Policy
- Equal Opportunities Policy
- Anti-Bullying Policy
- Visitor Policy
- PSHE Policy
- Computing Policy
- PE Policy
- Science Policy

Intent

RSHE in our school is part of the personal, social and health education curriculum. This is integrated within the wider school curriculum and complements and overlaps with the general ethos and life of the school. To provide a planned, age appropriate scheme of work, designed to capitalise on the fascination and interest that children have about themselves, their own growth and development and to offer reassurance that such changes are normal and natural.

In planning and presenting our RSHE programme we provide the opportunity for pupils to express themselves within a trusted and safe environment, following agreed ground rules. We want to reassure children of their value and self-worth including aspects of dignity, self-respect and self-restraint, help them to have a responsible attitude towards personal relationships including mutual respect and care and to develop sensitivity towards the needs of others, provide knowledge of loving relationships and human reproductive process.

We aim to inform children on matters of personal hygiene and related health issues, encourage exploration of values and moral issues taking into account physical and moral risks associated with certain behaviour, educate against discrimination and prejudice and help prepare children to make informed choices about relationships.

We teach children how to be safe within their environment including online and make children aware of the importance of good mental health.

We offer a planned and appropriate scheme of work, devised to meet the following aims and objectives:

Our Scheme of work aims to:

- Raise and promote positive self esteem
- To keep children safe
- Help pupils develop their skills and confidence in making decisions, communication, assertiveness, self-expression, respect for self and others
- Help pupils communicate and understand their feelings and emotions
- Provide pupils with skills necessary to keep themselves happy and safe
- Prepare pupils for the physical and emotional changes of growing up
- Offer opportunity for pupils to develop and clarify their attitudes and values
- Counteract myths and misinformation
- Challenge media stereotypes, oppression and prejudice and promote equal opportunities
- Explain the meaning of words in a sensible and factual way, using correct names for body parts and functions
- Provide reassurance that change is part of the lifecycle and help pupils accept variations
- Raise awareness of sources of help, support and advice
- To understand the value of family life, the implications of parenthood and the need for the proper care of all young things.
- To develop skills in personal relationships e.g. communication, assertiveness, decision making.
- To promote equal opportunities for all.
- To keep children healthy

Roles and responsibilities

The governing board is responsible for:

- Ensuring all pupils make progress in achieving the expected educational outcomes.
- Ensuring the curriculum is well led, effectively managed and well planned.
- Evaluating the quality of provision through regular and effective self-evaluation.
- Ensuring teaching is delivered in ways that are accessible to all pupils with SEND.
- Providing clear information for parents on subject content and their rights to request that their children are withdrawn.
- Making sure the subjects are resourced, staffed and timetabled in a way that ensures the school can fulfil its legal obligations.

It is the responsibility of the head teacher to ensure that:

- The overall implementation of this policy.
- Ensuring that parents are fully informed of this policy.
- Reviewing requests from parents to withdraw their children from the subjects.
- Discussing requests for withdrawal with parents.
- Organising alternative education for pupils, where necessary, that is appropriate and purposeful.
- Reporting to the governing board on the effectiveness of this policy.
- Reviewing this policy on an annual basis.

The relationships, sex and health education subject leader is responsible for:

- Overseeing the delivery of the subjects.
- Ensuring staff are suitably trained to deliver the subjects.
- Ensuring the subjects are age-appropriate and high-quality.
- Ensuring teachers are provided with adequate resources to support teaching of the subjects.
- Ensuring the school meets its statutory requirements in relation to the relationships, sex and health curriculum.
- Ensuring the relationships, sex and health curriculum is inclusive and accessible for all pupils.
- Working with other subject leaders to ensure the relationships, sex and health curriculum complements, but does not duplicate, the content covered in the national curriculum.
- Monitoring and evaluating the effectiveness of the subjects and providing reports to the head teacher.

The teaching staff are responsible for:

- Delivering a high-quality and age-appropriate relationships, sex and health curriculum in line with statutory requirements.
- Using a variety of teaching methods and resources to provide an engaging curriculum that meets the needs of all pupils.
- Ensuring they do not express personal views or beliefs when delivering the programme.
- Modelling positive attitudes to relationships, sex and health education.
- Responding to any safeguarding concerns in line with the Child Protection and Safeguarding Policy.
- Acting in accordance with planning, monitoring and assessment requirements for the subjects.
- Liaising with the SENCO to identify and respond to individual needs of pupils with SEND.
- Working with the relationships, sex and health education subject leader to evaluate the quality of provision.

Organisation of the curriculum

Every primary school is required to deliver statutory relationships education and health education. The delivery of the relationships education and of health education coincide with one another and will be delivered as part of the school's PSHE curriculum, which is taught using the Jigsaw PSHE programme and Shropshire's Respect Yourself documentation.

For the purpose of this policy:

- "Relationships and sex education" is defined as teaching pupils about healthy, respectful relationships, focussing on family and friendships, in all contexts, including online, as well as developing an understanding of human sexuality.

- “Health education” is defined as teaching pupils about physical health and mental wellbeing, focussing on recognising the link between the two and being able to make healthy lifestyle choices.

The relationships and health curriculum has been organised in line with the statutory requirements outlined in the DfE (2019) ‘Relationships, Education, Relationships and Sex Education (RSE) and Health Education’ (see appendix a)

The relationships and health curriculum takes into account the views of teachers, pupils and parents. The school has organised a curriculum that is appropriate for the age and developmental stages of pupils within each year group. When organising the curriculum, the religious backgrounds of all pupils will be considered, so that the topics that are covered are taught appropriately.

We are dedicated to ensuring our curriculum meets the needs of the whole-school community; therefore, the curriculum is informed by issues in the school and wider community to ensure it is tailored to pupils’ needs.

When children will be taught each of the statutory requirements is outlined in the coverage document -coverage of statutory relationships and health education (appendix b). The school always considers the age and development of pupils when deciding what will be taught in each year group. A progressive curriculum is planned, in which topics are built upon prior knowledge taught in previous years as pupils progress through school, with a view to providing a smooth transition to secondary school.

Relationships Education Overview

The statutory guidance outlines the following:

Families and people who care for me

By the end of primary school, pupils will know:

- That families are important for them growing up because they can give love, security and stability.
- The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other’s lives.
- That others’ families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children’s families are also characterised by love and care.
- That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children’s security as they grow up.
- That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships

By the end of primary school, pupils will know:

- How important friendships are in making us feel happy and secure, and how people choose and make friends.
- The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
- That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- That most friendships have ups and downs, but that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
- How to recognise who to trust and who not to trust.
- How to judge when a friendship is making them feel unhappy or uncomfortable.
- How to manage conflict.
- How to manage different situations and how to seek help from others if needed.

Respectful relationships

By the end of primary school, pupils will know:

- The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), make different choices, or have different preferences or beliefs.
- Which practical steps they can take in a range of different contexts to improve or support respectful relationships.
- The conventions of courtesy and manners.
- The importance of self-respect and how this links to their own happiness.

- That in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.
- What a stereotype is, and how they can be unfair, negative or destructive.
- The importance of permission-seeking and giving in relationships with friends, peers and adults.

Online relationships

By the end of primary school, pupils will know:

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

Being safe

By the end of primary school, pupils will know:

- What sorts of boundaries are appropriate in friendships with peers and others – including in a digital context.
- About the concept of privacy and the implications of it for both children and adults.
- That it is not always right to keep secrets if they relate to being safe.
- That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- How to respond safely and appropriately to adults they may encounter, including online, who they do not know.
- How to recognise and report feelings of being unsafe or feeling bad about any adult.
- How to ask for advice or help for themselves and others, and to keep trying until they are heard.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

Health Education Overview

The focus at primary level is teaching the characteristics of good physical health and mental wellbeing. The following is outlined in the statutory guidance.

Mental wellbeing

By the end of primary school pupils will know:

- That mental wellbeing is a normal part of daily life, in the same way as physical health.
- That there is a normal range of emotions, e.g. happiness, sadness, anger, fear, surprise and nervousness.
- The scale of emotions that humans experience in response to different experiences and situations.
- How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
- How to judge whether what they are feeling and how they are behaving are appropriate and proportionate.
- The benefits of physical exercise, time outdoors, community participation, and voluntary and service-based activity on mental wellbeing and happiness.
- Simple self-care techniques, including the importance of rest, time spent with friends and family, and the benefits of hobbies and interests.
- How isolation and loneliness can affect children, and that it is very important they seek support and discuss their feelings with an adult.
- That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
- Where and how to seek support (including recognising the triggers for seeking support), extending to who in school they should speak to if they are worried about themselves or others.

- That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

By the end of primary school, pupils will know:

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.
- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why some social media, some computer games and online gaming are age-restricted.
- That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information, inclusive of that from search engines, is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

Physical health and fitness

By the end of primary school, pupils will know:

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.
- The risks associated with an inactive lifestyle, including obesity.
- How and when to seek support, including which adults to speak to in school, if they are worried about their health.

Healthy eating

By the end of primary school, pupils will know:

- What constitutes a healthy diet, including an understanding of calories and other nutritional content.
- The principles of planning and preparing a range of healthy meals.
- The characteristics of a poor diet and risks associated with unhealthy eating, including obesity, and other behaviours, e.g. the impact of alcohol on health.

Drugs, alcohol and tobacco

By the end of primary school, pupils will know the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

Health and prevention

By the end of primary school, pupils will know:

- How to recognise early signs of physical illness, such as weight loss or unexplained changes to the body.
- About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
- The importance of sufficient good-quality sleep for good health, and that a lack of sleep can affect weight, mood and ability to learn.
- About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
- About personal hygiene and germs, including bacteria and viruses, how they are spread and treated, and the importance of hand washing.
- The facts and science relating to immunisation and vaccination.

Basic first aid

By the end of primary school, pupils will know:

- How to make a clear and efficient call to emergency services if necessary.
- Concepts of basic first-aid, for example dealing with common injuries, including head injuries.

Changing adolescent body

By the end of primary school, pupils will know:

- Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- About menstrual wellbeing and key facts relating to the menstrual cycle.

Sex Education

Although it is not statutory to deliver sex education outside of the science curriculum at primary level, the DfE recommends that all primary schools should have a sex education programme in place. This should be tailored to the age, and physical and emotional maturity of pupils, and should ensure that boys and girls are prepared for the changes that adolescence brings, drawing on knowledge of the human life cycle.

All pupils must be taught the aspects of sex education outlined in the primary science curriculum – this includes teaching about the main external parts of the human body, how it changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals.

At Randlay Primary School sex education is taught using the materials from Shropshire's Respect Yourself document, all sex education is taught from a biological perspective and is closely linked to our teaching of respect for others and healthy relationships.

Parents are fully consulted in the organisation and delivery of our sex education curriculum, as outlined in this policy. Parents are given the opportunity to discuss what should be taught through sex education.

The age and development of pupils is always considered when delivering sex education.

The curriculum is as follows:

Year 5 and 6

To know and understand life processes, including reproduction, beyond what is taught in statutory science.

To know and understand the main stages of the human life cycle including birth

Delivery of the curriculum

Through effective organisation and delivery of the subject, we will ensure that:

- Core knowledge is sectioned into units of manageable size.
- The required content is communicated to pupils clearly, in a carefully sequenced way, within a planned scheme of work.
- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge so that it can be used confidently in real-life situations.

The curriculum is delivered proactively, such that it addresses issues in a timely way in line with current evidence on children's physical, emotional and sexual development. The school will ensure that all teaching and materials are appropriate for the ages of the pupils, their religious backgrounds, their developmental stages and any additional needs, such as SEND. Lesson plans will provide appropriate challenge for pupils and be differentiated for pupils' needs.

Teaching of the curriculum reflects requirements set out in law, particularly the Equality Act 2010, so that pupils understand what the law does and does not allow, and the wider legal implications of the decisions they make.

Pupils will be taught the facts and the law about sex, sexuality, sexual health and gender identity in an age-appropriate, inclusive and respectful way. We will endeavour to support all pupils to feel that the content is relevant to them and their developing sexuality.

Classes may be taught in smaller groups, dependent upon the nature of the topic being delivered at the time, and the cultural background of pupils where it is appropriate to deal with these issues with heightened sensitivity.

Any resources or materials used to support learning will be formally assessed by the relationships, sex and health education subject leader before use to ensure they are appropriate for the age and maturity of pupils, and sensitive to their needs.

Materials from the Respect Yourself Curriculum are solely used in our teaching of Sex Education. Throughout every year group, appropriate diagrams, videos, books, games, discussion and practical activities will be used to assist learning. Parents will be given the opportunity to view and discuss materials on an annual basis.

Teachers will establish what is appropriate for one-to-one, single sex and whole-class settings and alter their teaching of the programme accordingly. Teachers will ensure that lesson plans are centred around reducing stigma, particularly in relation to mental wellbeing, and encouraging openness through discussion activities and group work. Teachers will ensure lesson plans focus on challenging perceived views of pupils based on protected characteristics, through exploration of, and developing mutual respect for, those different to themselves.

Teachers will ensure that pupils' views are listened to and will encourage them to ask questions and engage in discussion. Teachers will answer questions sensitively, honestly and in a manner appropriate to the pupil's age.

Teachers will ensure pupils are aware of the expectation of them to participate sensitively and respectfully in class discussions of sensitive issues.

Teachers will stop full class discussions where pupils begin to reveal personal, private information related to sensitive issues. If teachers feel concerned about anything shared by a pupil, they will follow the appropriate response as laid out in the Child Protection and Safeguarding Policy.

The programme will be designed to incorporate all pupils, and activities will be planned to ensure all are actively involved.

Teachers will focus heavily on the importance of healthy relationships, though sensitivity will always be given as to not stigmatise pupils based on their home circumstances.

Whilst there are no formal examinations for the relationships, sex and health curriculum, the school will undertake informal assessments to determine pupil progress.

The following outlines what children will be specifically taught in their year group. The teaching in year 5 and 6 about conception and birth is the only teaching which is not part of the statutory curriculum and categorised as sex education, this is labelled below:

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Names and functions of some body parts, that humans grown from babies to adults, that humans change as they get older and who to talk to if they are feeling worried. Vocabulary used: Eye, Foot, Eyebrow, Forehead, Ear, Mouth, Arm, Leg, Chest, Knee, Nose, Tongue, Finger, Toe, Stomach, Hand, Baby, Grown-up, Adult, Change, Worry	Recognising and understanding how they have changed from a baby, naming external body parts of boys and girls, recognising and respecting differences between themselves and others.	Understanding the difference between girls and boys bodies and naming external body parts, recognising and respecting differences between themselves and others. Vocabulary used: knee, shoulder, neck, head, feet, vagina, finger, arm, testicles, hand, thumb, penis, stomach, mouth eyes	Understanding the difference between girls and boys bodies and naming external body parts, recognising and respecting differences between themselves and others. Vocabulary used: knee, shoulder, neck, head, feet, vagina, finger, arm, testicles, hand, thumb, penis, stomach, mouth eyes	Preparing for and understanding changes that occur as part of puberty including physical and emotional changes including developing breasts, growing pubic hair and facial hair, body odour, starting periods and voices getting deeper	Knowing that during puberty a body changes from a child to an adult and beginning to understand why the body changes during puberty, basic facts about pregnancy (non-statutory) including the functions of organs of the body including brains, lungs, kidneys bladder, penis and testicles and ovaries and fallopian tubes amongst other organs. Menstruation (taught in single sex groups)	Confidently discuss the physical and emotional changes caused by puberty, discussing hygiene. Learning the name of female and male reproductive organs and how they function (part of this lesson about the reproductive function of the reproductive organs is non-statutory)

Confidentiality

Teachers conduct sex education lessons in a sensitive manner and in confidence. However, if a child makes a reference to being involved, or likely to be involved in sexual activity, then the teacher will take the matter seriously and deal with it as a matter of child protection. Teachers will respond in a similar way if a child indicates that they may have been a victim of abuse. In these circumstances the teacher will talk to the child as a matter of urgency. If the teacher has concerns, they will draw their concerns to the attention of the Head Teacher as the designated safeguarding lead. The Head Teacher will then deal with the matter in accordance with the Child Protection Policy.

Working with external experts

External experts may be invited to assist from time-to-time with the delivery of the programme and will be expected to comply with the provisions of this policy. The intended use of external experts is to enhance the curriculum delivered by teachers, rather than as a replacement for teachers.

Before delivering the session, the school will:

- Ensure the lesson the external expert has planned fits with the school's planned curriculum and this policy.
- Ensure the expert's credentials are checked before they are able to participate in delivery of the curriculum, in line with the Visitor Policy.
- Agree with the expert the procedures for confidentiality, ensuring that the expert understands how safeguarding reports should be dealt with in line with the Child Protection and Safeguarding Policy.

Equality and accessibility

The school understands its responsibilities in relation to the Equality Act 2010, specifically that it must not unlawfully discriminate against any pupil because of their protected characteristics. These include:

- Age
- Sex or sexual orientation
- Race
- Disability
- Religion or belief
- Gender reassignment
- Pregnancy or maternity
- Marriage or civil partnership

The school is committed to making reasonable adjustments wherever possible to promote accessibility and inclusivity of the curriculum. The school understands that pupils with SEND or other needs, such as those with social, emotional or mental health needs, are entitled to learn about relationships, sex and health education, and the programme will be designed to be inclusive of all pupils.

Curriculum links

The school seeks opportunities to draw links between relationships, sex and health education and other curriculum subjects wherever possible to enhance pupils' learning. Relationships, sex and health education will be linked to the following subjects in particular:

- **Science** – pupils learn about the main external parts of the body and changes to the body as it grows from birth to old age, including puberty.
- **Computing and ICT** – pupils learn about e-safety, including how to use technology safely, responsibly, respectfully and securely, how to keep personal information private and how to access help and support.
- **PE** – pupils explore various physical activities, are physically active for sustained periods of time, engage in competitive sport and understand how exercise can lead to healthier lifestyles.
- **PSHE** – pupils learn about respect and difference, values and characteristics of individuals.

Home/School Partnership

We believe that parents have the primary role in delivering relationship and sex education. We aim to provide a programme in partnership, ensuring all pupils receive high quality provision in line with national good practice recommendations. This policy has been developed in partnership with parents and carers and it is shared with them via our website and available from the office in hard copy.

Children are exposed to information and messages from T.V, internet, film, music videos, books and magazines. They are influenced by family and friends and significant adults. Part of our role is to ensure that children are able to understand and not misinterpret the information they acquire and to provide contexts where they are able to consider and evaluate the information they receive. The DfEE acknowledge this is their 2019 *guidance 'Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way.'*

It is hoped that the school curriculum and the ethos of the school complements and enhances home teaching and values, giving due regard to the value of family life, loving and stable relationships. We provide parents with opportunities to discuss the school's policy and practice. Parents will be informed about the timing of the delivery and offered an opportunity to look at resources. Parents are encouraged to discuss and ask questions. This will happen on an annual basis.

Withdrawing from the subjects

Relationships and health education are statutory at primary and parents do not have the right to withdraw their child from the subjects.

As sex education is not statutory at primary level, other than what must be taught as part of the science curriculum, parents have the right to request to withdraw their child from all or part of the sex education curriculum.

If a parent wishes to do this they should make an appointment to discuss this with the Head Teacher. The head teacher will automatically grant a parent's request to withdraw their child from sex education, other than the content that must be taught as part of the science curriculum however the head teacher will discuss the request with parents and, as appropriate, with the child to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. The head teacher will discuss with the parent, the benefits of receiving this important education and any adverse effects that withdrawal may have on the pupil – this could include, for example, social and emotional effects of being excluded.

The head teacher will keep a record of the discussion between themselves, the pupil and the parent. The parent will be informed in writing of the head teacher's decision.

We would encourage parents to discuss any concerns at the earliest opportunity with the Head Teacher.

Where a pupil is withdrawn from sex education, the head teacher will ensure that the pupil receives appropriate alternative education.

Monitoring and review

The governing board is responsible for approving this policy.

This policy will be reviewed on an annual basis by the relationships, sex and health education subject leader and headteacher. This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing. Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils.
